STAR ALLIANCE TO SHOW A NEW SMILE : THAI Smile Airways to become new Connecting Partner

The Chief Executive Board of Star Alliance, meeting on the sides of the 75th IATA Annual General Meeting in Seoul, approved the application of THAI Smile Airways to become a part the Alliance's Connecting Partner model. The Connecting Partner model was established by Star Alliance in June 2016 to complement its membership model. In contrast to full membership in the Alliance, requiring building of commercial ties with all full members, the more regional Connecting Partner scope calls for commercial relationships with a minimum of three carriers only. Customers travelling on an itinerary which includes a transfer between a Star Alliance member airline and a Connecting Partner will be offered standard Alliance benefits such as passenger and baggage through check-in. In addition, customers who have achieved Star Alliance Gold Status in their frequent flyer programme will enjoy premium customer benefits. Once all entry requirements are fulfilled, which is expected by the end of the year, THAI Smile Airways will become the second Connecting Partner, joining Juneyao Airlines that entered in 2017. Connecting Partners allow Star Alliance to close network gaps that may exist of a regional basis. THAI Smile Airways will add 11 new destinations to the Star Alliance network, which already comprises over 1,300 airports in 194 countries.

Ethiopian food for beginners

Popular breakfast dishes include enkulal tibs(scrambled eggs made with a combination of green and red peppers, tomatoes and sometimes onions, served with bread), ful (chickpea and butter purée) and injera fir fir (tornup injera mixed with butter and berbere, a red powder containing as many as 16 spices or more). At lunch and dinner the much heralded Ethiopian staples of wat, kitfo and tere sega come out to play with the ever-present injera.
