Pleased to Support The Aslan Project

The Aslan Project
We exist to heal children

Ethiopian got into agreement with The Aslan Project to improve pediatric cancer treatment in Ethiopia.

Ethiopian also honors 12 year-old Ethiopian farm boy named Temesgen Gamacho who was a cancer patient whose mother sold all of her cattle and, with nothing but the \$200 she had collected, they made the 12-hour journey by foot and bus in search of medical care in Addis. Once in Addis, Temesgen's leg was amputated and with the help of two generous Americans, he was able to be treated by Dr. Aziza at Georgetown University Hospital's Lombardi Comprehensive Cancer Center in Washington, DC. Unfortunately, Temesgen's cancer spread and he passed away. Dr. Shada sought to honor Temesgen by helping those in his situation in Ethiopia.

Ethiopian believes in the noble virtue of giving back to the community through different means. And one of these is to genuinely stand with those whose mission values the welfare of the society as a whole.
